SUMMARY

Software Developer skilled in Java, Spring Boot, React.js, and MySQL. Strong foundation in Data Structures, Algorithms, and OOP with practical experience in RESTful APIs, JWT, and AWS deployment. Passionate about building scalable full-stack applications.

EXPERIENCE

Programmer Analyst Trainee (Java Developer)

June 2024 – November 2024

Cognizant

- Developed, tested, and debugged application modules as part of project-based learning assignments.
- Applied object-oriented programming concepts and database fundamentals in practical scenarios.
- Identified and resolved logical, syntax, and runtime errors to improve code quality.
- Collaborated with team members following standard software development lifecycle (SDLC).

SKILLS

Programming Languages: Java, C++, JavaScript, SQL, C, C#

Frontend: React.js, HTML5, CSS3 **Backend:** Spring Boot, REST APIs

Database: MySQL, MongoDB (Basic)

Core Concepts: Data Structures & Algorithms, OOP, OS (Basic), SDLC, Debugging

DevOps & Tools: Git, GitHub, VS Code, Visual Studio, Docker, Kubernetes (Basic), Linux CLI

Other Skills: MS.Net, Artificial Intelligence & Machine Learning (Basic)

PROJECTS

Stay'N'Joy – Online Accommodation Portal

Jan 2026 – Feb 2026

PG-DAC Course — staynjoy.scriptbliss.com

- Developed a full-stack property rental platform using React.js, Spring Boot, MySQL, and RESTful APIs, enabling property listing, search, booking, and user management.
- Implemented secure authentication and authorization using Spring Security, JWT, and Role-Based Access Control (RBAC), along with end-to-end CRUD operations.
- Designed a scalable system architecture supporting 1,000+ concurrent users and thousands of property listings, while optimizing database performance through efficient schema design and queries.
- Deployed the application with React.js on Vercel, Spring Boot on AWS EC2, and MySQL on AWS RDS, ensuring scalability, reliability, and production readiness.

IoT-Based Smart School Bus Monitoring System

Sinhgad College of Engineering

- Engineered an IoT-based real-time school bus tracking solution to enhance student safety.
- Implemented GPS-based live tracking with approximately 90% accuracy.
- Improved operational transparency for school authorities and parents.
- Focused on real-time monitoring, reliability, and system efficiency.

EDUCATION

Post Graduate Diploma in Advanced Computing (PG-DAC)

2026

CDAC Sunbeam Infotech Pvt. Ltd., Karad, Maharashtra

Bachelor of Technology (B.Tech) – Electronics & Telecommunication

Minor in Artificial Intelligence & Machine Learning

Sinhgad College of Engineering (Pune University), Pune

CERTIFICATIONS

- Java Certification – HackerRank (2024) • SQL Certification – HackerRank (2024)
